Green chelates agents are biodegradable materials mainly used for washing or cleaning. These materials are primarily used in Laundry, surface care, detergents, and homecare. Common chelating agents are poorly biodegradable and there are concerns about their environmental effects. Heavy metals, which are very toxic for water and soil are used in these. Therefore, biotechnological approaches and computational tools are used to produce green chelating agents. The main area of application for this market is cleaning, which can be categorized into industrial cleaning and household cleaning. Industrial cleaning involves mechanical dishwashing, equipment cleaning, and others, where green chelates/natural chelating agents are used for the removal of metal ions. Household cleaning includes automatic dishwashing, laundry detergents, hand dishwashing, and surface cleaning.

The use of green chelates as a natural agricultural nutrient will drive the growth prospects for the global green chelating agents market in the forthcoming years. The growing use of agrochemicals due to the economic development witnessed in emerging countries such as Brazil, Russia, India, and China, increasing disposable income of its citizens, and changes in the standard of living, will drive the growth in demand for green chelating agents. In addition, a large number of agrochemical manufacturers are increasingly adopting green chelating agents to produce high-quality food items, formulating effective micronutrients for crops, and enhancing their uptake. Additionally, to address the environmental issues and their impacts the coming years will also witness an increased demand for eco-friendly chelating agents from the agrochemicals industry, which will consequently drive market growth.

Europe accounted for the maximum market share during 2016 and will continue to dominate the market in the forthcoming years as well. Some of the major factors responsible for the market’s growth in the region is the increasing consumer awareness and stringent water resource protection laws. Moreover, as the maturity of the market for conventional chelating agents such as ethylenediaminetetraacetic acid tetrasodium salt (EDTA), will also drive the growth of the market for green chelating agents in this region.

Global Green Chelating Agents market size will increase to xx Million US$ by 2025, from xx Million US$ in 2018, at a CAGR of xx% during the forecast period. In this study, 2018 has been considered as the base year and 2019 to 2025 as the forecast period to estimate the market size for Green Chelating Agents.

This report researches the worldwide Green Chelating Agents market size (value, capacity, production and consumption) in key regions like United States, Europe, Asia Pacific (China, Japan) and other regions. This study categorizes the global Green Chelating Agents breakdown data by manufacturers, region, type and application, also analyzes the market status, market share, growth rate, future trends, market drivers, opportunities and challenges, risks and entry barriers, sales channels, distributors and Porter’s Five Forces Analysis. The following manufacturers are covered in this report: AkzoNobel BASF Dow Chemical Kemira NIPPON SHOKUBAI Innospec Jungbunzlauer Suisse Green Chelating Agents Breakdown Data by Type Sodium Gluconate Ethylenediamine-N, N'-Disuccinic Acid L-Glutamic Acid N, N-Diacetic Acid Methyl Glycindiacetic Acid Others Green Chelating Agents Breakdown Data by Application Cleaners Water Treatment Pulp & Paper Agrochemicas Personal Care Pharmaceutical Food & Beverage Others Green Chelating Agents Production Breakdown Data by Region United States Europe China Japan Other Regions Green Chelating Agents Consumption Breakdown Data by Region North America United States Canada Mexico Asia-Pacific China
The study objectives are:
To analyze and research the global Green Chelating Agents capacity, production, value, consumption, status and forecast;
To focus on the key Green Chelating Agents manufacturers and study the capacity, production, value, market share and
development plans in next few years.
To focuses on the global key manufacturers, to define, describe and analyze the market competition landscape, SWOT analysis.
To define, describe and forecast the market by type, application and region.
To analyze the global and key regions market potential and advantage, opportunity and challenge, restraints and risks.
To identify significant trends and factors driving or inhibiting the market growth.
To analyze the opportunities in the market for stakeholders by identifying the high growth segments.
To strategically analyze each submarket with respect to individual growth trend and their contribution to the market.
To analyze competitive developments such as expansions, agreements, new product launches, and acquisitions in the market.
To strategically profile the key players and comprehensively analyze their growth strategies.
In this study, the years considered to estimate the market size of Green Chelating Agents:
History Year: 2014-2018
Base Year: 2018
Estimated Year: 2019
Forecast Year 2019 to 2025
For the data information by region, company, type and application, 2018 is considered as the base year. Whenever data
information was unavailable for the base year, the prior year has been considered.

Contents:
Table of Contents
1 Study Coverage
   • 1.1 Green Chelating Agents Product
   • 1.2 Key Market Segments in This Study
   • 1.3 Key Manufacturers Covered
   • 1.4 Market by Type
      • 1.4.1 Global Green Chelating Agents Market Size Growth Rate by Type
      • 1.4.2 Sodium Gluconate
      • 1.4.3 Ethylenediamine-N, N'-Disuccinic Acid
      • 1.4.4 L-Glutamic Acid N, N-Diacetic Acid
      • 1.4.5 Methyl Glycindiacetic Acid
      • 1.4.6 Others
   • 1.5 Market by Application
      • 1.5.1 Global Green Chelating Agents Market Size Growth Rate by Application
      • 1.5.2 Cleaners
      • 1.5.3 Water Treatment
      • 1.5.4 Pulp & Paper
      • 1.5.5 Agrochemicals
      • 1.5.6 Personal Care
      • 1.5.7 Pharmaceutical
      • 1.5.8 Food & Beverage
      • 1.5.9 Others
   • 1.6 Study Objectives
   • 1.7 Years Considered
2 Executive Summary
   • 2.1 Global Green Chelating Agents Production
      • 2.1.1 Global Green Chelating Agents Revenue 2014-2025
      • 2.1.2 Global Green Chelating Agents Production 2014-2025
      • 2.1.3 Global Green Chelating Agents Capacity 2014-2025
      • 2.1.4 Global Green Chelating Agents Marketing Pricing and Trends
   • 2.2 Green Chelating Agents Growth Rate (CAGR) 2019-2025
   • 2.3 Analysis of Competitive Landscape
      • 2.3.1 Manufacturers Market Concentration Ratio (CR5 and HHI)
      • 2.3.2 Key Green Chelating Agents Manufacturers
2.4 Market Drivers, Trends and Issues
2.5 Macroscopic Indicator
  2.5.1 GDP for Major Regions
  2.5.2 Price of Raw Materials in Dollars: Evolution

3 Market Size by Manufacturers
  3.1 Green Chelating Agents Production by Manufacturers
    3.1.1 Green Chelating Agents Production by Manufacturers
    3.1.2 Green Chelating Agents Production Market Share by Manufacturers
  3.2 Green Chelating Agents Revenue by Manufacturers
    3.2.1 Green Chelating Agents Revenue by Manufacturers (2014-2019)
    3.2.2 Green Chelating Agents Revenue Share by Manufacturers (2014-2019)
  3.3 Green Chelating Agents Price by Manufacturers
  3.4 Mergers & Acquisitions, Expansion Plans

4 Green Chelating Agents Production by Regions
  4.1 Global Green Chelating Agents Production by Regions
    4.1.1 Global Green Chelating Agents Production Market Share by Regions
    4.1.2 Global Green Chelating Agents Revenue Market Share by Regions
  4.2 United States
    4.2.1 United States Green Chelating Agents Production
    4.2.2 United States Green Chelating Agents Revenue
    4.2.3 Key Players in United States
    4.2.4 United States Green Chelating Agents Import & Export
  4.3 Europe
    4.3.1 Europe Green Chelating Agents Production
    4.3.2 Europe Green Chelating Agents Revenue
    4.3.3 Key Players in Europe
    4.3.4 Europe Green Chelating Agents Import & Export
  4.4 China
    4.4.1 China Green Chelating Agents Production
    4.4.2 China Green Chelating Agents Revenue
    4.4.3 Key Players in China
    4.4.4 China Green Chelating Agents Import & Export
  4.5 Japan
    4.5.1 Japan Green Chelating Agents Production
    4.5.2 Japan Green Chelating Agents Revenue
    4.5.3 Key Players in Japan
    4.5.4 Japan Green Chelating Agents Import & Export
  4.6 Other Regions
    4.6.1 South Korea
    4.6.2 India
    4.6.3 Southeast Asia

5 Green Chelating Agents Consumption by Regions
  5.1 Global Green Chelating Agents Consumption by Regions
    5.1.1 Global Green Chelating Agents Consumption by Regions
    5.1.2 Global Green Chelating Agents Consumption Market Share by Regions
  5.2 North America
    5.2.1 North America Green Chelating Agents Consumption by Application
    5.2.2 North America Green Chelating Agents Consumption by Countries
    5.2.3 United States
    5.2.4 Canada
    5.2.5 Mexico
  5.3 Europe
    5.3.1 Europe Green Chelating Agents Consumption by Application
    5.3.2 Europe Green Chelating Agents Consumption by Countries
    5.3.3 Germany
    5.3.4 France
    5.3.5 UK
    5.3.6 Italy
    5.3.7 Russia
  5.4 Asia Pacific
    5.4.1 Asia Pacific Green Chelating Agents Consumption by Application
    5.4.2 Asia Pacific Green Chelating Agents Consumption by Countries
    5.4.3 China
    5.4.4 Japan
    5.4.5 South Korea
    5.4.6 India
    5.4.7 Australia
    5.4.8 Indonesia
    5.4.9 Thailand
    5.4.10 Malaysia
    5.4.11 Philippines
    5.4.12 Vietnam
  5.5 Central & South America
    5.5.1 Central & South America Green Chelating Agents Consumption by Application
    5.5.2 Central & South America Green Chelating Agents Consumption by Countries
    5.5.3 Brazil
  5.6 Middle East and Africa
    5.6.1 Middle East and Africa Green Chelating Agents Consumption by Application
    5.6.2 Middle East and Africa Green Chelating Agents Consumption by Countries
    5.6.3 Turkey
    5.6.4 GCC Countries
    5.6.5 Egypt
    5.6.6 South Africa
6 Market Size by Type
- 6.1 Global Green Chelating Agents Breakdown Data by Type
- 6.2 Global Green Chelating Agents Revenue by Type
- 6.3 Green Chelating Agents Price by Type

7 Market Size by Application
- 7.1 Overview
- 7.2 Global Green Chelating Agents Breakdown Data by Application
  - 7.2.1 Global Green Chelating Agents Consumption by Application

8 Manufacturers Profiles
- 8.1 AkzoNobel
  - 8.1.1 AkzoNobel Company Details
  - 8.1.2 Company Description
  - 8.1.3 Capacity, Production and Value of Green Chelating Agents
  - 8.1.4 Green Chelating Agents Product Description
  - 8.1.5 SWOT Analysis
- 8.2 BASF
  - 8.2.1 BASF Company Details
  - 8.2.2 Company Description
  - 8.2.3 Capacity, Production and Value of Green Chelating Agents
  - 8.2.4 Green Chelating Agents Product Description
  - 8.2.5 SWOT Analysis
- 8.3 Dow Chemical
  - 8.3.1 Dow Chemical Company Details
  - 8.3.2 Company Description
  - 8.3.3 Capacity, Production and Value of Green Chelating Agents
  - 8.3.4 Green Chelating Agents Product Description
  - 8.3.5 SWOT Analysis
- 8.4 Kemira
  - 8.4.1 Kemira Company Details
  - 8.4.2 Company Description
  - 8.4.3 Capacity, Production and Value of Green Chelating Agents
  - 8.4.4 Green Chelating Agents Product Description
  - 8.4.5 SWOT Analysis
- 8.5 NIPPON SHOKUBAI
  - 8.5.1 NIPPON SHOKUBAI Company Details
  - 8.5.2 Company Description
  - 8.5.3 Capacity, Production and Value of Green Chelating Agents
  - 8.5.4 Green Chelating Agents Product Description
  - 8.5.5 SWOT Analysis
- 8.6 Innospec
  - 8.6.1 Innospec Company Details
  - 8.6.2 Company Description
  - 8.6.3 Capacity, Production and Value of Green Chelating Agents
  - 8.6.4 Green Chelating Agents Product Description
  - 8.6.5 SWOT Analysis
- 8.7 Jungbunzlauer Suisse
  - 8.7.1 Jungbunzlauer Suisse Company Details
  - 8.7.2 Company Description
  - 8.7.3 Capacity, Production and Value of Green Chelating Agents
  - 8.7.4 Green Chelating Agents Product Description
  - 8.7.5 SWOT Analysis

9 Production Forecasts
- 9.1 Green Chelating Agents Production and Revenue Forecast
  - 9.1.1 Global Green Chelating Agents Production Forecast 2019-2025
  - 9.1.2 Global Green Chelating Agents Revenue Forecast 2019-2025
- 9.2 Green Chelating Agents Production and Revenue Forecast by Regions
  - 9.2.1 Global Green Chelating Agents Revenue Forecast by Regions
  - 9.2.2 Global Green Chelating Agents Production Forecast by Regions
- 9.3 Green Chelating Agents Key Producers Forecast
  - 9.3.1 United States
  - 9.3.2 Europe
  - 9.3.3 China
  - 9.3.4 Japan
- 9.4 Forecast by Type
  - 9.4.1 Global Green Chelating Agents Production Forecast by Type
  - 9.4.2 Global Green Chelating Agents Revenue Forecast by Type

10 Consumption Forecast
- 10.1 Consumption Forecast by Application
- 10.2 Green Chelating Agents Consumption Forecast by Regions
- 10.3 North America Market Consumption Forecast
  - 10.3.1 North America Green Chelating Agents Consumption Forecast by Countries 2019-2025
  - 10.3.2 United States
  - 10.3.3 Canada
  - 10.3.4 Mexico
- 10.4 Europe Market Consumption Forecast
  - 10.4.1 Europe Green Chelating Agents Consumption Forecast by Countries 2019-2025
  - 10.4.2 Germany
  - 10.4.3 France
  - 10.4.4 UK
  - 10.4.5 Italy
  - 10.4.6 Russia
10.5 Asia Pacific Market Consumption Forecast
   10.5.1 Asia Pacific Green Chelating Agents Consumption Forecast by Countries 2019-2025
   10.5.2 China
   10.5.3 Japan
   10.5.4 Korea
   10.5.5 India
   10.5.6 Australia
   10.5.7 Indonesia
   10.5.8 Thailand
   10.5.9 Malaysia
   10.5.10 Philippines
   10.5.11 Vietnam

10.6 Central & South America Market Consumption Forecast
   10.6.1 Central & South America Green Chelating Agents Consumption Forecast by Country 2019-2025
   10.6.2 Brazil

10.7 Middle East and Africa Market Consumption Forecast
   10.7.1 Middle East and Africa Green Chelating Agents Consumption Forecast by Countries 2019-2025
   10.7.2 Middle East and Africa
   10.7.3 Turkey
   10.7.4 GCC Countries
   10.7.5 Egypt
   10.7.6 South Africa

11 Upstream, Industry Chain and Downstream Customers Analysis
   11.1 Analysis of Green Chelating Agents Upstream Market
      11.1.1 Green Chelating Agents Key Raw Material
      11.1.2 Typical Suppliers of Key Green Chelating Agents Raw Material
      11.1.3 Green Chelating Agents Raw Material Market Concentration Rate
   11.2 Green Chelating Agents Industry Chain Analysis
   11.3 Marketing & Distribution
   11.4 Green Chelating Agents Distributors
   11.5 Green Chelating Agents Customers

12 Opportunities & Challenges, Threat and Affecting Factors
   12.1 Market Opportunities
   12.2 Market Challenges
   12.3 Porter's Five Forces Analysis

13 Key Findings

14 Appendix
   14.1 Research Methodology
      14.1.1 Methodology/Research Approach
      14.1.2 Data Source
   14.2 Author Details
