Auxiliary power systems (APS) for rolling stocks provide power to systems essential to train operation apart from traction. The growth in facilities provided on-board is increasing continuously, thus giving rise to the need for auxiliary power systems. EMEA accounted for the largest share of the market during 2017. With the growth in railway electrification in advanced economies including the UK and Germany, this region will continue to dominate the market during the next few years as well.

The global Auxiliary Power Systems for Rolling Stock market was valued at xx million US$ in 2018 and will reach xx million US$ by the end of 2025, growing at a CAGR of xx% during 2019-2025.

This report focuses on Auxiliary Power Systems for Rolling Stock volume and value at global level, regional level and company level. From a global perspective, this report represents overall Auxiliary Power Systems for Rolling Stock market size by analyzing historical data and future prospect.

Regionally, this report categorizes the production, apparent consumption, export and import of Auxiliary Power Systems for Rolling Stock in North America, Europe, China, Japan, Southeast Asia and India.

For each manufacturer covered, this report analyzes their Auxiliary Power Systems for Rolling Stock manufacturing sites, capacity, production, ex-factory price, revenue and market share in global market.

The following manufacturers are covered:
ABB
GENERAL ELECTRIC
Mitsubishi Electric
SMA Railway Technology
Toshiba
TTM Rail - Transtech Melbourne
...

Segment by Regions
North America
Europe
China
Japan
Southeast Asia
India

Segment by Type
750VDC
1500VDC
3000VDC

Segment by Application
Rapid transit vehicles
Locomotives
Railroad cars

Table of Contents

Executive Summary

1 Industry Overview of Auxiliary Power Systems for Rolling Stock
  ● 1.1 Definition of Auxiliary Power Systems for Rolling Stock
  ● 1.2 Auxiliary Power Systems for Rolling Stock Segment by Type
    ● 1.2.1 Global Auxiliary Power Systems for Rolling Stock Production Growth Rate Comparison by Types (2014-2025)
    ● 1.2.2 750VDC
    ● 1.2.3 1500VDC
    ● 1.2.4 3000VDC
  ● 1.3 Auxiliary Power Systems for Rolling Stock Segment by Applications
    ● 1.3.1 Global Auxiliary Power Systems for Rolling Stock Consumption Comparison by Applications (2014-2025)
    ● 1.3.2 Rapid transit vehicles
    ● 1.3.3 Locomotives
    ● 1.3.4 Railroad cars
  ● 1.4 Global Auxiliary Power Systems for Rolling Stock Overall Market
    ● 1.4.1 Global Auxiliary Power Systems for Rolling Stock Revenue (2014-2025)
    ● 1.4.2 Global Auxiliary Power Systems for Rolling Stock Production (2014-2025)
    ● 1.4.3 North America Auxiliary Power Systems for Rolling Stock Status and Prospect (2014-2025)
    ● 1.4.4 Europe Auxiliary Power Systems for Rolling Stock Status and Prospect (2014-2025)
    ● 1.4.5 China Auxiliary Power Systems for Rolling Stock Status and Prospect (2014-2025)
    ● 1.4.6 Japan Auxiliary Power Systems for Rolling Stock Status and Prospect (2014-2025)
    ● 1.4.7 Southeast Asia Auxiliary Power Systems for Rolling Stock Status and Prospect (2014-2025)
    ● 1.4.8 India Auxiliary Power Systems for Rolling Stock Status and Prospect (2014-2025)
2 Manufacturing Cost Structure Analysis

- 2.1 Raw Material and Suppliers
- 2.2 Manufacturing Cost Structure Analysis of Auxiliary Power Systems for Rolling Stock
- 2.3 Manufacturing Process Analysis of Auxiliary Power Systems for Rolling Stock
- 2.4 Industry Chain Structure of Auxiliary Power Systems for Rolling Stock

3 Development and Manufacturing Plants Analysis of Auxiliary Power Systems for Rolling Stock

- 3.1 Capacity and Commercial Production Date
- 3.2 Global Auxiliary Power Systems for Rolling Stock Manufacturing Plants Distribution
- 3.3 Major Manufacturers Technology Source and Market Position of Auxiliary Power Systems for Rolling Stock
- 3.4 Recent Development and Expansion Plans

4 Key Figures of Major Manufacturers

- 4.1 Auxiliary Power Systems for Rolling Stock Production and Capacity Analysis
- 4.2 Auxiliary Power Systems for Rolling Stock Revenue Analysis
- 4.3 Auxiliary Power Systems for Rolling Stock Price Analysis
- 4.4 Market Concentration Degree

5 Auxiliary Power Systems for Rolling Stock Regional Market Analysis

- 5.1 Auxiliary Power Systems for Rolling Stock Production by Regions
  - 5.1.1 Global Auxiliary Power Systems for Rolling Stock Production by Regions
  - 5.1.2 North America Auxiliary Power Systems for Rolling Stock Production by Regions
- 5.2 Auxiliary Power Systems for Rolling Stock Consumption by Regions
- 5.3 North America Auxiliary Power Systems for Rolling Stock Market Analysis
  - 5.3.1 North America Auxiliary Power Systems for Rolling Stock Production
  - 5.3.2 North America Auxiliary Power Systems for Rolling Stock Revenue
  - 5.3.3 Key Manufacturers in North America
  - 5.3.4 North America Auxiliary Power Systems for Rolling Stock Import and Export
- 5.4 Europe Auxiliary Power Systems for Rolling Stock Market Analysis
  - 5.4.1 Europe Auxiliary Power Systems for Rolling Stock Production
  - 5.4.2 Europe Auxiliary Power Systems for Rolling Stock Revenue
  - 5.4.3 Key Manufacturers in Europe
  - 5.4.4 Europe Auxiliary Power Systems for Rolling Stock Import and Export
- 5.5 China Auxiliary Power Systems for Rolling Stock Market Analysis
  - 5.5.1 China Auxiliary Power Systems for Rolling Stock Production
  - 5.5.2 China Auxiliary Power Systems for Rolling Stock Revenue
  - 5.5.3 Key Manufacturers in China
- 5.6 Japan Auxiliary Power Systems for Rolling Stock Market Analysis
  - 5.6.1 Japan Auxiliary Power Systems for Rolling Stock Production
  - 5.6.2 Japan Auxiliary Power Systems for Rolling Stock Revenue
  - 5.6.3 Key Manufacturers in Japan
  - 5.6.4 Japan Auxiliary Power Systems for Rolling Stock Import and Export
- 5.7 Southeast Asia Auxiliary Power Systems for Rolling Stock Market Analysis
  - 5.7.1 Southeast Asia Auxiliary Power Systems for Rolling Stock Production
  - 5.7.2 Southeast Asia Auxiliary Power Systems for Rolling Stock Revenue
  - 5.7.3 Key Manufacturers in Southeast Asia
  - 5.7.4 Southeast Asia Auxiliary Power Systems for Rolling Stock Import and Export
- 5.8 India Auxiliary Power Systems for Rolling Stock Market Analysis
  - 5.8.1 India Auxiliary Power Systems for Rolling Stock Production
  - 5.8.2 India Auxiliary Power Systems for Rolling Stock Revenue
  - 5.8.3 Key Manufacturers in India
  - 5.8.4 India Auxiliary Power Systems for Rolling Stock Import and Export

6 Auxiliary Power Systems for Rolling Stock Segment Market Analysis (by Type)

- 6.1 Global Auxiliary Power Systems for Rolling Stock Production by Type
- 6.2 Global Auxiliary Power Systems for Rolling Stock Revenue by Type
- 6.3 Auxiliary Power Systems for Rolling Stock Price by Type

7 Auxiliary Power Systems for Rolling Stock Segment Market Analysis (by Application)

- 7.1 Global Auxiliary Power Systems for Rolling Stock Consumption by Application

8 Auxiliary Power Systems for Rolling Stock Major Manufacturers Analysis

- 8.1 ABB
  - 8.1.1 ABB Auxiliary Power Systems for Rolling Stock Production Sites and Area Served
  - 8.1.2 ABB Product Introduction, Application and Specification
  - 8.1.4 Main Business and Markets Served
- 8.2 GENERAL ELECTRIC
  - 8.2.1 GENERAL ELECTRIC Auxiliary Power Systems for Rolling Stock Production Sites and Area Served
  - 8.2.2 GENERAL ELECTRIC Product Introduction, Application and Specification
  - 8.2.4 Main Business and Markets Served
- 8.3 Mitsubishi Electric
  - 8.3.1 Mitsubishi Electric Auxiliary Power Systems for Rolling Stock Production Sites and Area Served
  - 8.3.2 Mitsubishi Electric Product Introduction, Application and Specification
8.3.4 Main Business and Markets Served

8.4 SMA Railway Technology
- 8.4.1 SMA Railway Technology Auxiliary Power Systems for Rolling Stock Production Sites and Area Served
- 8.4.2 SMA Railway Technology Product Introduction, Application and Specification
- 8.4.4 Main Business and Markets Served

8.5 Toshiba
- 8.5.1 Toshiba Auxiliary Power Systems for Rolling Stock Production Sites and Area Served
- 8.5.2 Toshiba Product introduction, Application and Specification
- 8.5.4 Main Business and Markets Served

8.6 TTM Rail - Transtech Melbourne
- 8.6.1 TTM Rail - Transtech Melbourne Auxiliary Power Systems for Rolling Stock Production Sites and Area Served
- 8.6.2 TTM Rail - Transtech Melbourne Product Introduction, Application and Specification
- 8.6.4 Main Business and Markets Served

9 Development Trend of Analysis of Auxiliary Power Systems for Rolling Stock Market

9.1 Global Auxiliary Power Systems for Rolling Stock Market Trend Analysis

9.2 Auxiliary Power Systems for Rolling Stock Regional Market Trend
- 9.2.2 Europe Auxiliary Power Systems for Rolling Stock Forecast 2019-2025
- 9.2.3 China Auxiliary Power Systems for Rolling Stock Forecast 2019-2025
- 9.2.4 Japan Auxiliary Power Systems for Rolling Stock Forecast 2019-2025
- 9.2.5 Southeast Asia Auxiliary Power Systems for Rolling Stock Forecast 2019-2025
- 9.2.6 India Auxiliary Power Systems for Rolling Stock Forecast 2019-2025

9.3 Auxiliary Power Systems for Rolling Stock Market Trend (Product Type)
- 9.4 Auxiliary Power Systems for Rolling Stock Market Trend (Application)

10.1 Marketing Channel
- 10.1.1 Direct Marketing
- 10.1.2 Indirect Marketing

10.3 Auxiliary Power Systems for Rolling Stock Customers

11 Market Dynamics

11.1 Market Trends
- 11.2 Opportunities
- 11.3 Market Drivers
- 11.4 Challenges
- 11.5 Influence Factors

12 Conclusion

13 Appendix

- 13.1 Methodology/Research Approach
  - 13.1.1 Research Programs/Design
  - 13.1.2 Market Size Estimation
  - 13.1.3 Market Breakdown and Data Triangulation

- 13.2 Data Source
  - 13.2.1 Secondary Sources
  - 13.2.2 Primary Sources

- 13.3 Author List
