Description:
We recognizes the following companies as the key players in the global automation control market in medical devices industry: ABB, General Electric, Rockwell Automation, Schneider Electric, and Siemens.

According to the report, one driver in the market is stringent regulatory requirements for product development documentation process. Medical device manufacturers must comply with the regulatory requirements and ensure the quality of manufacturing process, to streamline and simplify complex regulatory reporting tasks. Manufacturers must focus extensively on safety as medical equipment is primarily focused on human wellness.

Commenting on the report, an analyst from Technavio’s team said: “One trend in the market is shift from on-premises to cloud-based systems. Medical device manufacturers in the market are becoming steadily aware of the benefits of adopting cloud-based environment. The advantages offered by the adoption of cloud-based systems include reduced cost, greater flexibility, and enhanced functionality.”

The global Automation Control in Medical Devices market was valued at 760 million US$ in 2018 and will reach 1120 million US$ by the end of 2025, growing at a CAGR of 5.7% during 2019-2025.

This report focuses on Automation Control in Medical Devices volume and value at global level, regional level and company level. From a global perspective, this report represents overall Automation Control in Medical Devices market size by analyzing historical data and future prospect.

Regionally, this report categorizes the production, apparent consumption, export and import of Automation Control in Medical Devices in North America, Europe, China, Japan, Southeast Asia and India.

For each manufacturer covered, this report analyzes their Automation Control in Medical Devices manufacturing sites, capacity, production, ex-factory price, revenue and market share in global market.

The following manufacturers are covered:
ABB
General Electric
Rockwell Automation
Schneider Electric
Siemens
...

Segment by Regions
North America
Europe
China
Japan
Southeast Asia
India

Segment by Type
MES
PLC
DCS
SCADA

Segment by Application
Hospital
Clinical

Contents:

Table of Contents
Executive Summary
1 Industry Overview of Automation Control in Medical Devices
   - 1.1 Definition of Automation Control in Medical Devices
   - 1.2 Automation Control in Medical Devices Segment by Type
     - 1.2.1 Global Automation Control in Medical Devices Production Growth Rate Comparison by Types (2014-2025)
     - 1.2.2 MES
     - 1.2.3 PLC
     - 1.2.4 DCS
     - 1.2.5 SCADA
   - 1.3 Automation Control in Medical Devices Segment by Applications
     - 1.3.1 Global Automation Control in Medical Devices Consumption Comparison by Applications (2014-2025)
     - 1.3.2 Hospital
     - 1.3.3 Clinical
   - 1.4 Global Automation Control in Medical Devices Overall Market
     - 1.4.1 Global Automation Control in Medical Devices Revenue (2014-2025)
     - 1.4.2 Global Automation Control in Medical Devices Production (2014-2025)
     - 1.4.3 North America Automation Control in Medical Devices Status and Prospect (2014-2025)
     - 1.4.4 Europe Automation Control in Medical Devices Status and Prospect (2014-2025)
2 Manufacturing Cost Structure Analysis

- 2.1 Raw Material and Suppliers
- 2.2 Manufacturing Cost Structure Analysis of Automation Control in Medical Devices
- 2.3 Manufacturing Process Analysis of Automation Control in Medical Devices
- 2.4 Industry Chain Structure of Automation Control in Medical Devices

3 Development and Manufacturing Plants Analysis of Automation Control in Medical Devices

- 3.1 Capacity and Commercial Production Date
- 3.2 Global Automation Control in Medical Devices Manufacturing Plants Distribution
- 3.3 Major Manufacturers Technology Source and Market Position of Automation Control in Medical Devices
- 3.4 Recent Development and Expansion Plans

4 Key Figures of Major Manufacturers

- 4.1 Automation Control in Medical Devices Production and Capacity Analysis
- 4.2 Automation Control in Medical Devices Revenue Analysis
- 4.3 Automation Control in Medical Devices Price Analysis
- 4.4 Market Concentration Degree

5 Automation Control in Medical Devices Regional Market Analysis

- 5.1 Automation Control in Medical Devices Production by Regions
  - 5.1.1 Global Automation Control in Medical Devices Production by Regions
  - 5.1.2 Global Automation Control in Medical Devices Revenue by Regions
- 5.2 Automation Control in Medical Devices Consumption by Regions
- 5.3 North America Automation Control in Medical Devices Consumption by Regions
- 5.4 Europe Automation Control in Medical Devices Market Analysis
  - 5.4.1 Europe Automation Control in Medical Devices Production
  - 5.4.2 Europe Automation Control in Medical Devices Revenue
  - 5.4.3 Key Manufacturers in Europe
  - 5.4.4 Europe Automation Control in Medical Devices Import and Export
- 5.5 China Automation Control in Medical Devices Market Analysis
  - 5.5.1 China Automation Control in Medical Devices Production
  - 5.5.2 China Automation Control in Medical Devices Revenue
  - 5.5.3 Key Manufacturers in China
  - 5.5.4 China Automation Control in Medical Devices Import and Export
- 5.6 Japan Automation Control in Medical Devices Market Analysis
  - 5.6.1 Japan Automation Control in Medical Devices Production
  - 5.6.2 Japan Automation Control in Medical Devices Revenue
  - 5.6.3 Key Manufacturers in Japan
  - 5.6.4 Japan Automation Control in Medical Devices Import and Export
- 5.7 Southeast Asia Automation Control in Medical Devices Market Analysis
  - 5.7.1 Southeast Asia Automation Control in Medical Devices Production
  - 5.7.2 Southeast Asia Automation Control in Medical Devices Revenue
  - 5.7.3 Key Manufacturers in Southeast Asia
  - 5.7.4 Southeast Asia Automation Control in Medical Devices Import and Export
- 5.8 India Automation Control in Medical Devices Market Analysis
  - 5.8.1 India Automation Control in Medical Devices Production
  - 5.8.2 India Automation Control in Medical Devices Revenue
  - 5.8.3 Key Manufacturers in India
  - 5.8.4 India Automation Control in Medical Devices Import and Export

6 Automation Control in Medical Devices Segment Market Analysis (by Type)

- 6.1 Global Automation Control in Medical Devices Production by Type
- 6.2 Global Automation Control in Medical Devices Revenue by Type
- 6.3 Automation Control in Medical Devices Price by Type

7 Automation Control in Medical Devices Segment Market Analysis (by Application)

- 7.1 Global Automation Control in Medical Devices Consumption by Application

8 Automation Control in Medical Devices Major Manufacturers Analysis

- 8.1 ABB
  - 8.1.1 ABB Automation Control in Medical Devices Production Sites and Area Served
  - 8.1.2 ABB Product Introduction, Application and Specification
  - 8.1.3 ABB Automation Control in Medical Devices Production, Revenue, Ex-factory Price and Gross Margin (2014-2019)
  - 8.1.4 Main Business and Markets Served
- 8.2 General Electric
  - 8.2.1 General Electric Automation Control in Medical Devices Production Sites and Area Served
  - 8.2.2 General Electric Product Introduction, Application and Specification
  - 8.2.3 General Electric Automation Control in Medical Devices Production, Revenue, Ex-factory Price and Gross Margin (2014-2019)
  - 8.2.4 Main Business and Markets Served
- 8.3 Rockwell Automation
  - 8.3.1 Rockwell Automation Automation Control in Medical Devices Production Sites and Area Served
  - 8.3.2 Rockwell Automation Product Introduction, Application and Specification
8.3.3 Rockwell Automation Automation Control in Medical Devices Production, Revenue, Ex-factory Price and
8.3.4 Main Business and Markets Served

8.4 Schneider Electric
8.4.1 Schneider Electric Automation Control in Medical Devices Production Sites and Area Served
8.4.2 Schneider Electric Product Introduction, Application and Specification
8.4.3 Schneider Electric Automation Control in Medical Devices Production, Revenue, Ex-factory Price and
8.4.4 Main Business and Markets Served

8.5 Siemens
8.5.1 Siemens Automation Control in Medical Devices Production Sites and Area Served
8.5.2 Siemens Product Introduction, Application and Specification
8.5.3 Siemens Automation Control in Medical Devices Production, Revenue, Ex-factory Price and Gross Margin
(2014-2019)
8.5.4 Main Business and Markets Served

9 Development Trend of Analysis of Automation Control in Medical Devices Market

9.1 Global Automation Control in Medical Devices Market Trend Analysis
9.1.1 Global Automation Control in Medical Devices Market Size (Volume and Value) Forecast 2019-2025

9.2 Automation Control in Medical Devices Regional Market Trend
9.2.1 North America Automation Control in Medical Devices Forecast 2019-2025
9.2.2 Europe Automation Control in Medical Devices Forecast 2019-2025
9.2.3 China Automation Control in Medical Devices Forecast 2019-2025
9.2.4 Japan Automation Control in Medical Devices Forecast 2019-2025
9.2.5 Southeast Asia Automation Control in Medical Devices Forecast 2019-2025
9.2.6 India Automation Control in Medical Devices Forecast 2019-2025

9.3 Automation Control in Medical Devices Market Trend (Product Type)
9.4 Automation Control in Medical Devices Market Trend (Application)

10.1 Marketing Channel
10.1.1 Direct Marketing
10.1.2 Indirect Marketing
10.3 Automation Control in Medical Devices Customers

11 Market Dynamics
11.1 Market Trends
11.2 Opportunities
11.3 Market Drivers
11.4 Challenges
11.5 Influence Factors

12 Conclusion

13 Appendix
13.1 Methodology/Research Approach
13.1.1 Research Programs/Design
13.1.2 Market Size Estimation
13.1.3 Market Breakdown and Data Triangulation

13.2 Data Source
13.2.1 Secondary Sources
13.2.2 Primary Sources

13.3 Author List
